Education

Kalinga Institute of Industrial Technology **Expected 2026**
B.Tech in Computer Science & Engineering, CGPA: 8.61 *Bhubaneswar, Odisha*

Adyant Higher Secondary School **2021**
CBSE Class XII, Percentage: 86.6% *Khordha, Odisha*

BJEM School **2019**
CBSE Class X, Percentage: 86.5% *Bhubaneswar, Odisha*

Technical Skills

Programming & Scripting: Python, Java, C, JavaScript
Data Engineering & Analytics: PySpark, Pandas, ETL Pipelines, Data Validation, Window Functions
Web Development: HTML, CSS, React.js, Node.js, Express, Tailwind CSS, Bootstrap
Databases: MongoDB, MySQL, HSQL
Tools & Platforms: Git, GitHub, VS Code, Unix, Ubuntu, Power BI, Netlify, Wix Studio

Internship

Infosys **Dec 2025 – May 2026**
Winternship Trainee *Remote*

- Completed hands-on training in **Data Engineering and Software Development**, focusing on real-world problem solving.
- Worked on structured datasets and implemented data processing workflows using modern development practices.
- Gained exposure to **Agile methodology**, version control, and collaborative development environments.
- Built mini-projects involving data transformation, validation, and basic analytics.

SquidSquare Pvt Ltd **May 2025 – July 2025**
Software Developer Intern *Bhubaneswar, India*

- Developed **AI Summarizer Pro**, an AI-powered summarization tool capable of generating concise summaries from selected text, webpages, and documents.
- Built as both a **Chrome extension** and **web application**, improving accessibility across platforms.
- Integrated **LLMs** and extractive summarization techniques, improving productivity for 200+ users.
- Implemented **JWT authentication** and **MongoDB Atlas** for secure and scalable data handling.

Key Projects

Order Lifecycle Integrity System **PySpark, Python, Power BI**

- Built a scalable **PySpark pipeline** for order lifecycle tracking and validation.
- Identified anomalies including duplicates, missing stages, and invalid transitions.
- Applied window functions and developed interactive dashboards using Power BI.

AI Summarizer Pro **React, Node.js, LLM APIs**

- Developed an AI-based tool to generate summaries from text, webpages, and documents.
- Integrated **LLM APIs** and deployed as a Chrome extension and web application.

Video Conferencing App **WebRTC, Node.js, React**

- Built a real-time video conferencing platform with chat and screen sharing features.
- Implemented low-latency communication using **WebRTC** and Socket.io.

Extracurricular Activities

- Led the basketball team at the national level, demonstrating leadership and teamwork.
- Organized a blood donation camp, coordinating volunteers and raising awareness.
- Participated in the Smart India Hackathon, developing solutions for real-world challenges.
